

DONATION INFORMATION

Many of you have sent programs for use in future Public Domain, Inc. collections. We wish to thank all who have sent programs or will be sending programs in the future. You are the people who help to make the Public Domain, Inc. collections what they are today.

The notes below will aid us in reviewing your programs and make sure that each writer receives their donation letter good for one free collection of their choice.

Because we only put collections together every six months, you may not hear from us or receive your letter for some time after we receive your program. Please be patient, we have not forgotten you. Also, please note we will only send a freebe letter AFTER the program has been checked and cleared for use on a collection.

Please note, only ONE letter can be sent to a person per donation. If a donation has several good programs included on the tape or disk, then we may send more than one freebe letter. However, to receive more than one freebe letter the programs must be very well done!

In the last six months of donations, many of the programs have been from magazines, books or converted from other computer basics. These programs CAN NOT BE USED! We have also received "donations" from one person but written by someone else, these programs also MAY NOT BE USED!

The best programs are those written by you, being your own ideas. This type of program will help to add to the number of original programs already on the collections.

When you write a program and wish us to consider it for release on a future collection for others to enjoy, please include your full name, address, area code and phone number, which machine it is for (Vic-20 or Commodore 64) and a letter stating we may use the program on a future collection. Also add at least your name to your program. If we use your program, we will send you a letter good for one FREE collection of your choice. If you need a replacement tape or disk, include the request in your letter. Replacement tapes will be a C-90 and disks will be SSSD. Please note, we cannot return your original tape, disk or letter.

Writers, please note the Writers Contest elsewhere in this catalog. This is your chance to net some cash rewards and challenge your imagination.

Good luck and good writing!

Public Domain, Inc.

WRITERS CONTEST

January 1, 1985 is the deadline for the P.D.I. Writers Contest. The entry rules and prizes are listed below. Read the page carefully, then turn your computer on and start writing!!!

The four prize categories listed below will be awarded by Public Domain, Inc. on or about February 1, 1985. You may enter one or all of the categories any number of times with a different program.

Each program MUST be totally in basic. Each program MUST be your own idea, no conversions or modifications. Any program not winning a major prize and used on a future P.D.I. collection will receive one collection of their choice free. Major prize winners will have their choice of cash or merchandise.

Winners will be listed in the first 1985 catalog or will be sent on request if a self addressed stamped (20 cent) envelope is included.

Winners will be notified by certified mail.

# OF LINES	1 st PRIZE	2 nd PRIZE	3 rd PRIZE
1 - 10	\$20.00	\$15.00	\$10.00
11 - 99	\$25.00	\$15.00	\$10.00
100 - 499	\$50.00	\$25.00	\$10.00
500 - and up	\$75.00	\$50.00	\$25.00

CONTEST RULES

1. Any writer not following these rules will be disqualified.

2. All programs must be sent on tape or disk. No printed listings. Tapes or Disks will not be returned.

3. Each tape or disk must be labeled with the writers full name, address, area code and phone number and the type of computer, i.e. Vic-20 or Commodore 64. This information must be included in your program, either as "REM"arks or part of the first screen of the program.

4. Each entry must include letter of agreement that Public Domain, Inc. may use the writers program on a future collection. Also, include any special instructions or items needed to run the program.

5. Programs must use multiple statements on each line where possible. "REM"arks lines will not be counted in line totals.

6. All programs must run with standard Commodore basic. Use of machine code subroutines or machine code in DATA statements will not be allowed.

7. Entries are not limited, however, each program must be different.

8. Programs must be your original idea, design and writing. No conversions, modifications or altered programs from books, magazines or other computer basics.

9. Prizes will be awarded on the basis of style, structure, content and operation. Public Domain, Inc. will select all winners. All selections will be final.

10. All entries must be postmarked on or before January 1, 1985.

11. All entries must be sent to:
